OUTLINES.

As a result of the investigations of the legislative committee, at Columbia, S. C., Governor Heywood has ordered prosecutions against three members of the liquor dispensary for malfeasance; they accepted bribes in the amount of thousands of dollars from houses from which they purchased whisky for the State——Dr. Neill, one of the inspectors sent by President Roosevelt to look into the packing houses at Chicago, made some shocking disclosures yesterday before the House Committee on Agriculture; Mr. T. E. Wilson, representing the packers, also testified before the committee, saying among other things that the disclosures have seriously damaged the business——The funeral of Senator Gorman occurred in Washington yesterday, President Roosevelt, Vice President Fairbanks, the Senate and others having sent handsome floral tributes——The Senate yesterday sent the rate bill back to conference, and passed the bill to preserve Niagara Falls——The Indiana Democratic convention yesterday nominated a State ticket and enthusiastically endorsed Bryan for President——In the Pennsylvania Railroad investigation yesterday First Vice President McCrea testified that when rebating was abandoned the community of interest was adopted by the railroads; he also testified that the executive board of the Baltimore and Ohio Railroad was composed of Pennsylvania Railroad officials with but one exception—New York markets: Money on call easy 2 1-2 to 3 1-2, ruling rate 3 1-4 to 3 1-2, closing bid 2 1-2, offered at 3; spot cotton quiet and steady, 11.20; flour firm but dull; wheat firm, No. 2 red, 94 nominal elevator; corn firm, No. 2, 59 nominal elevator; oats firm mixed, 40 1-2; turpentine and rosin firm.

The North Carolina ham will now assume its old-time dignity. No Chicago in that.

The inspectors made the meat packers dance the can-can. Naturally, an indecent exposure resulted.

The Chicago packers enter a plea of guilty by claiming that their plants are now fifty per cent. cleaner than they were ten days ago.

"What shall we do with the anarchist?" asks a contemporary. As we can't stand for lynching, we reserve our answer to that question.

Representative Clark, of Florida, yesterday introduced a bill diverting $3,000,000 of the funds that would go into the reclamation fund, to drain the everglades of Florida.

The long and the short of it is, Mr. Long will be Short of votes when the State convention meets. He has written himself clean out of the race for Corporation Commissioner.

The solid vote of Columbus county for McCormick for Solicitor may be found to have had a string tied to it when the Congressional convention meets.

We are to infer from Gen. Miles' cavortings that when a man signs up to go with the army he is taking chances between the War Department's bill of fare and the enemy's bullets.

But did anybody notice how General Miles seized the packing house exposure to break it off in the Republican white-washers about the "embalmed beef" scandal? "All things come to him who waits"—especially if he waits for the opportunity to get even for old scores.

The Republican State conventions cannot do otherwise than endorse President Roosevelt's administration, but in doing so they are lining up with William Jennings Bryan who has openly and time and again commended President Roosevelt for standing on good old Democratic ground.

The Baltimore jury which heard the damage suit of Mrs. Margaret Hageman against Mr. Henry Callender, "found it impossible," says a dispatch, "whether a good smack on the lips and a tight squeeze are worth $20,000 or 20 cents, and failed to agree." We do not hesitate to say that those gentlemen of the jury who "stuck out" for 20 cents have a small idea of values.

FINANCES OF COUNTY

Auditing Committee of Board of Commissioners In Session Yesterday Afternoon

THE TREASURER'S REPORT

Receipts and Disbursement of Public Fund During May—Examining List of Poll Tax Insolvents—An Inspection of the Roads.

The Auditing Committee of the Board of County Commissioners was in regular monthly session yesterday afternoon at the Court House. All members were present, viz: Chairman McEachern, Commissioner Robertson and Vollers. It was expected at the meeting to make settlement with the Sheriff for the taxes collected during the past fiscal year, but for some reason this was postponed to a subsequent meeting. However, some time was spent in going over and making an examination of the list of insolvent poll tax payers as returned by the Sheriff. The completion of this work was also deferred to a subsequent meeting. After the session yesterday the Commissioners went for an inspection of some of the road work.

The only matter of general interest at the meeting yesterday afternoon was an examination and approval of the treasurer's report for the month of May which shows receipts and disbursements as follows:

Arrest May be Important.

At the railroad yesterday afternoon Deputy Sheriff Harvey Cox arrested Josh Williams, alias Sam James, believed to be the negro who shot Neill McKoy at the celebration of National Memorial Day by the colored people at the National cemetery May 30th. Williams was arrested on the specific charge of vagrancy, but it was learned by the officer that the negro had been away from his work at the railroad since the shooting at the cemetery took place and it is strongly suspected that he was responsible for all the trouble on that occasion. McKoy lives on Ninth, between Harnett and Swann streets, and an effort will be made to get him to identify the negro under arrest. He will be given trial before Justice Furlong on the charge of vagrancy this afternoon.

ARE MASONS OF HIGH DEGREE

Oasis Temple of Shriners Are Expected Last of Month from Charlotte. Ceremonies at The Beach.

An event of considerable interest to the Masonic fraternity in this section of the State will take place at Wrightsville Beach the latter part of the present month. It will be an official visit of Oasis Temple, Ancient Arabic Order, Nobles of the Mystic Shrine, of Charlotte, and the object of the visit will be to confer the degree, one of the highest in Masonry, upon some 15 or 18 Masons of this city and some 35 or 40 from this section of the State with the end in view of ultimately establishing a Temple of the order in this city. It is only the Masons of high degree that are eligible to membership as Shriners and for that reason the meeing will bring to the city and to the beach a distinguished body of men from all over the State. Such meetings are also largely social and the meeting at Wrightsville promises to be fraught with much pleasure and enjoyment for those who are fortunate enough to be eligible to attend. The meeting will probably be at one of the hotels, but the degree work in all probability, which is said to be very elaborate, will take place in the Masonic Temple in this city.

Oasis Temple, of Charlotte, is one of the largest and most enthusiastic in this part of the country and correspondence has already been opened with reference to the arrangements for the Wrightsville visit. Committees from the Commandery in this city will be named to receive the visitors and look to their comfort in every way while they are here.

SHERIFF STEDMAN'S ALERTNESS.

The Judicial Convention at Fayetteville and Telegraph Difficulties.

Yesterday afternoon's Fayetteville Observer has the following:

Sheriff Frank H. Stedman, of New Hanover, was in the city last evening during the Judicial convention, welcomed by his many friends of the upper Cape Fear section.

In the small hours of the night an incident, growing out of that convention, strikingly showed the alertness, aggressiveness and "hold-on-ness" which have marked his career in public life, and has distinguished him as a politician.

The Fayetteville newspaper correspondents rushed out of the convention as soon as the result was known, and hastened to the Western Union, filing their messages at 12:25 A. M. Then, tired out, they put for home, never supposing that Western Union in Wilmington, with two daily morning papers to protect, would be closed for at least two hours.

Great was their disappointment to learn this morning from Mr. Murphy, manager of Western Union here, that the Wilmington and Greensboro telegraph offices were closed, but that the Charlotte Observer message went through. Their relief was equally as great when they found afterwards that Sheriff Stedman and Mr. E. F. McRae, of Robeson, had called Wilmington by long-distance telephone, and supplied an excellent account to the Messenger and Star.

ALDERMAN MOORE'S CONDITION.

Patient Not Resting So Well Yesterday—Unfavorable Symptoms.

The many friends of Alderman P. Q. Moore will regret to know that his condition was not improved yesterday. It was stated last night at 10.30 o'clock by one of the physicians in attendance that the patient was holding his own very well, but that he could not be said to be improving so favorably as the two days immediately following the operation. Slight complications have set in, but these are not regarded as bad as might be expected from the nature of the case at the time of the operation. Mr. Moore was a little despondent yesterday and that was regarded as not in his favor. In brief, it may be stated that yesterday he about held his own and there is still a fighting chance for recovery.

Police Court Yesterday.

In the police court yesterday Essie Hankins, colored, charged with being drunk and disorderly on Campbell, between Third and Fourth streets, and arrested by Officer E. Piner, was let off with the costs. George Brown, charged with larceny, was found not guilty and discharged. A. L. Usher, white, drunk, was fined $5 and costs.

To Build Handsome Residences.

Permits were granted yesterday for the erection of two handsome residences, one by Mr. F. R. King, to cost $2,800, at Seventh and Grace streets, and the other for Mrs. Emma Myers, on Saint James' Square. The buildings will be erected at once.

Brilliant Lumina.

JUDICIAL NOMINEES

Aftermath of Seventh District Convention in Fayetteville Wednesday Night

THE RACE FOR SOLICITOR

Detailed Account of the Proceedings From the Observer of Yesterday Afternoon—Robeson Delegation Inclined to Assert Itself.

The Fayetteville Observer of yesterday afternoon gives an interesting detailed account of the proceedings of the Seventh District Judicial Convention in that city Wednesday night, the material facts having been covered in a long distance telephone message to the Star from Fayetteville yesterday morning. It must indeed have been a stormy scene and a reminder of the Congressional deadlock at the same place four years ago. Hon. C. C. Lyon was placed in nomination by Mr. E. F. McCulloch, of Bladen, seconded by Mr. J. W. Atkinson, and Hon. J. G. Shaw, of Cumberland, and Jackson Greer, Esq., of Columbus. The nomination was, of course, by acclamation. The fight over the solicitorship then followed and is thus told of by the Observer of yesterday afternoon:

"It was 8:30 o'clock before the convention again came together after supper, at which time the hall was packed to overflowing. Mr. Currie was chairman of the Bladen delegation; Mr. Bellamy, of the Brunswick; Mr. Greer, of the Columbus; Maj. McKethan, of the Cumberland; Mr. Cook, of the Robeson, and Mr. McEachern, chairman of the caucus.

"Of course, even in advance of the afternoon session, it had become known that Robeson was divided in its preference for a solicitor; and, as Cumberland was solid for a very prominent candidate, the former county again became the beleaguered stronghold, Cumberland attacking from front, near the flank—Bladen, Brunswick and Columbus saying not a word, but 'sawing wood.'

"Of course, for the while of such a fight, it was impossible for the reporter to recognize all the combatants. The gist of the whole animated discussion was epitomized in the claim made by Mr. C. J. Cooper that of the 25 Robeson delegates seated in convention 14 were for one man and 11 for another, and his demand that the vote be cast in accordance with that personnel.

Mr. McEachern, chairman of the Robeson caucus, stated to the convention that his county stood 26 for Sinclair and 14 for McCormick, 9 votes being absent.

"Finally the convention settled itself into such a composure as admitted of the dispatch of regular business and nominations were declared in order.

"Mr. Greer, of Columbus, offered the name of Mr. John G. McCormick, of Robeson, seconded by Mr. Cook, of the same county; Mr. H. McD. Robinson that of Mr. N. A. Sinclair, seconded by Mr. J. H. Currie and Dr. McMillan of Robeson; Mr. Bellamy that of Mr. G. L. Peschau. The vote on the first ballot was as follows: Bladen, 10 for Sinclair; 5 for McCormick; 5 for Peschau; Brunswick, 13 for Peschau; Columbus, 32 for McCormick; Cumberland, 34 for Sinclair; as Robeson cast its vote it was challenged by Mr. McEachern, of that county, and this again gave rise to a heated discussion. Mr. J. H. Anderson, of Cumberland, emphasized the point that, under the rules, it was the duty of the chairman to order a poll of Robeson county in the hall openely, and at once. Col. McLean called Mr. McCulloch to the chair; and, going over to his delegation, strongly urged that Robeson be allowed to retire for ten minutes and straighten its difficulties. This, after opposition, was conceded, and after caucus, Robeson re-appeared, casting 24½ votes for Sinclair and 24½ for McCormick. Result of first ballot: Peschau, 18; McCormick, 61½; Sinclair, 68½; total, 148. The second, third, fourth and fifth ballots were the same. Sixth ballot: Bladen, 15 for Sinclair; 5 for Peschau, the other county votes being unchanged; total Peschau, 18; McCormick, 56½; Sinclair, 73½. On the seventh ballot Bladen caucused, but cast its vote as before, and the result was unchanged. On the eighth ballot the vote was as before. On the ninth ballot, Brunswick withdrew Peschau; and before the vote was announced Mr. Currie, chairman, asked permission to change Bladen's vote. Result of ninth ballot: Bladen, Sinclair, 17; McCormick, 3; Brunswick, McCormick, 13; Columbus, McCormick, 32; Cumberland, Sinclair, 34; Robeson, McCormick, 26½; Sinclair, 22½; total, McCormick, 72½; Sinclair, 75½. A protest was made by a Bladen delegate that this was not the correct county vote. Bladen then retired for caucus, and on the 10th ballot gave the same vote, and the chairman announced the nomination of Sinclair.

"The convention was then all alive with shouts, waving hats and clapping hands. There was call for Sinclair, and he came forward, and accepted the nomination in a few words in excellent spirit and taste.

"Mr. McCormick was among the first to clasp Mr. Sinclair's hand, and lead him forward to the front of the speaker's stand. In a stirring speech, he accepted defeat gracefully, and pledged his best efforts in support of his victorious competitor."

WENT GUNNING IN CHURCH

Two Colored "Sisters" of Ebenezer Baptist Congregation Are Before Justice Furlong.

According to reports there are lively times ahead for members of the congregation of Ebenezer Baptist church, colored, the disturbing element being two "sisters" who came to Justice Furlong's court with their troubles yesterday. It seems that Mary Williams, one of the number, had a falling out with the other about some church matter and that at one of the night services this week she walked boldly into the meeting with a pistol, sworn to do the sister who had raised her ire. Some of the congregation learned of the trouble brewing before there was an actual breach of the peace and according to the story poured out in the magistrate's office yesterday, some of the other sisters and brethren disarmed the belligerent woman right out in the house of worship, the pistol having been handed to the woman's husband who occupied a pew and was an interested spectator.

The woman was indicted yesterday for carrying a concealed weapon and was forthwith arrested and brought into court upon that charge. She was not ready for trial and secured a continuance until this afternoon when the affair will be aired from the beginning. The woman and her husband had retained William J. Bellamy, Esq., to appear for them and they promise interesting complications before the matter is over. About fifty witnesses, men and women from the congregation, have been summoned. The trial is set for 2:30 o'clock. It is said that the woman fell out about some trivial church affair and that both are in the fray to "do or to die."

THE POLICE EXCURSION.

Blue Coats Arranging for Big Time on Carolina Beach.

Elaborate arrangements are being made for the annual outing of the police of the city which will take place at Carolina Beach on the 27th of the present month. The following committee has been named to have the arrangements in charge, viz: Messrs. H. W. Howell, E. J. Grimsley, C. E. Wood, E. Piner and M. C. Gray. It it proposed to have a day of great amusement. There will be music and dancing and a team from the Southport Gun Club will be invited to meet a team from the police force on the traps at the beach. There will be no prizes this year in the several contests as last year, but the policemen will thankfully receive any donations in the way of refreshments for their enjoyment and that of their friends. The steamer Wilmington will make a number of trips during the day and a big crowd is expected on each of them.

From University Commencement.

Mrs. James Loughlin and Mr. Joseph J. Loughlin returned last evening from Chapel Hill where they attended the commencement exercises at the University of North Carolina. Mrs. Loughlin's son and Mr. Loughlin's brother, Mr. Charles C. Loughlin, was a member of the graduating class in law this year, receiving the degree of Bachelor of Laws. Mr. Loughlin's many friends in this city will be glad to know that he stood very high in the University and has every prospect of a most successful career in his profession. He will remain at the University this Summer, pursuing a special course in law and will go before the Supreme Court for examination and admission to the bar this Fall.

For Larceny of Watch.

Walter Reaves, a worthless negro, was arrested yesterday by Deputy Sheriff Harvey Cox on a charge of having stolen a watch from an old colored man who runs as a fireman on the engine of the passenger train between here and Charleston. A few nights ago the fireman came in and left his watch in his vest pocket in the cab while he climbed down to wash up. Reaves was in the cab at the time and when the fireman returned, the time-piece was missing. The alleged thief will be given preliminary trial before Justice Furlong this afternoon.

A SURPRISE WEDDING

Miss Annie L. Ryan, of Rochester, New York, Bride of Dr. T. B. Carroll

MARRIED AT ST. THOMAS.

Quiet but Very Impressive Ceremony Joined in Wedlock Popular Young People in This City—Jaunt to the Beach.

As quite a surprise to a large number of friends in this city and elsewhere comes the announcement of the marriage of Dr. Thomas B. Carroll, of this city, and Miss Annie L. Ryan, of Rochester, New York, which was celebrated yesterday evening in 6:30 o'clock in St. Thomas' Catholic church, the Rev. Father C. Dennen officiating. Conforming to the wishes of both the bride and groom, it was a very quiet affair and was witnessed only by members of the family and a few very intimate friends. Nevertheless the wedding was a very pretty one indeed and joined as man and wife two young people who are decidedly popular here.

The bride was attended as dame of honor by her friend, Mrs. T. Lafiteau, while the groom was attended as best man by his brother-in-law, Mr. John H. Niggel. There were no other attendants. The costumes worn by the ladies were very becoming while the gentlemen attendants wore the conventional black. The service by Father Dennen was according to the beautiful and impressive rites of the Catholic church.

Miss Ryan, the bride, has visited often in Wilmington and is much loved for her charming personality and many accomplishments. She was visiting friends and relatives here for some weeks before the wedding yesterday evening. The groom is one of Wilmington's most popular young men and has a large practice as a veterinary surgeon here as well as being interested in other enterprises. He is a Past Exalted Ruler of Wilmington Lodge of Elks and is held in the highest esteem by everyone in the circle of his acquaintance. While the engagement had been announced for some time, the friends of the couple, except within a very small circle, were unprepared for the announcement of the marriage yesterday afternoon.

After the service at the church yesterday evening Dr. and Mrs. Carroll, accompanied by a few friends took one of the early cars for the beach, where they were guests for the evening at the Hotel Tarrymoore. They returned on the car reaching the city at 10 o'clock and by way of retaliation for the march that had been stolen upon them, Dr. Carroll and bride were met and showered with rice by a large party of his bachelor friends among the Elks whom he had so ruthlessly forsaken without the formality of a "good-bye."

Dr. and Mrs. Carroll will make their home in Wilmington where they have a host of friends.

The Elks of the city had planned a more elaborate reception for Dr. Carroll and bride upon their return from the beach last night, but they were again outwitted. By the aid of a confederate who accompanied them to the beach, it was arranged for a large party of the doctor's bachelor friends to meet them with several hundred pounds of rice at Third and Princess streets and what they were going to show them in the way of a welcome was "a. p.," but the groom got the tip from a friend and the party returned from the beach earlier than the gathering had anticipated. Friends of the groom had to content themselves with a less demonstrative reception at the home of the groom's parents, on North Fourth street.

CHAUNCEY L. SOUTHERN.

Coming of Favorite Young Romantic Actor all Next Week.

Young, handsome, a pleasing appearance, fine voice, and a winning way, are the reasons why Chauncey L. Southern is such a favorite wherever he has played. IMMIGRATION SOUTHWARD.

The efforts of the South to attract immigration are attracting the attention of the Northern press and many are the editorials on the subject. The Washington Post has frequently referred to the matter, and with a kindly interest which is appreciated throughout the South, has lifted a voice of warning about the class of immigrants that may find their way to the Southern States unless great caution is exercised in securing the new comers. The Post discussing the subject, uses the heading, Immigration Southward, and says:

"Under this heading the esteemed Boston Advertiser, which has learned much in the bitter and convincing school of experience, says: 'If the immigration Southward is encouraged, it will be a difficult matter so to control it as to confine it to the desirable class. Once let it become known abroad that there is money to be made in the Southern industrial field, let it become known that immigrants are welcomed in the South, and there will be a flood which will tax every resource of the South to restrict it along the line now in mind. The South, if she makes up her mind to accept any immigrants and to treat them well at the outset, might as well at the same time make up her mind to accept whatever comes and make the best of it.'

"The Post has had its word in this matter. The gentlemen on the other side—representatives of the transportation companies and of mining and manufacturing concerns in search of cheap labor, and so on—are having theirs. The Southern people must in the end choose for themselves. They will at least consider, however, that this newspaper has nothing to gain or lose in either event; nothing whatsoever at stake, in fact, beyond the peace, order, prosperity, and happiness of the South."

In its reply to the Boston Advertiser, the Post evidently has reference to one of the Post's former editorials advising caution in the South on the immigration movement. The Star has heretofore agreed with the position of its esteemed contemporary on this important matter, and we certainly regard its admonitions as full of wisdom as of friendly interest in this section of the country. The Star realizes the necessity for new comers to the South, but has several times taken the position that it were better to have none than to attract to this section a class of foreigners that would be utterly undesirable as permanent settlers. It may not be out of place to again raise the voice of warning, and we repeat what we have before urged that such immigrants as are brought to North Carolina should be secured under State supervision and laws that will throw a safeguard around the movement.

The scarcity of common labor in the South necessarily compels the inducement of a class of people that may not be altogether desirable. At any rate we are bound to express our apprehension in securing too many of one race, as there is less likelihood of their becoming assimilated with our population. We want to avoid the distinctions of race, for we have enough of that now, but if we are to get whole communities of one class of people they are bound to be clannish and perpetuate their customs and mode of living in the midst of a different civilization.

We may as well say that we have reference to the large communities of Italian immigrants which are being brought South. The Italian is said to be a good laborer and many of them are as good as anybody, but large communities of them will bring us a new race trouble and we cannot believe that this immigration will be desirable in the long run. Our immigration ought not to be in bunches but more on the diversified order.

There are already in North Carolina several thousand Italian laborers, most of them engaged in railroad building in the western and eastern parts of the State. News was sent out from Wilson a few days ago that 200 Italians have arrived there to work on the Raleigh and Pamlico Sound Railroad, and that 300 hundred or more are expected to arrive for the same work in a short time. The question is coming close home to us and it will be interesting to watch the experiment with this new labor.

If the immigration movement to North Carolina and the South were conducted as judiciously as it is by the Carolina Trucking and Development Company, of Wilmington, we would be all right. Mr. Hugh MacRae, of this city, and his associates in that company have brought a considerable number of immigrants to this section and their aim is to get a good class of people. They are bringing here some people who will sooner or later own their own homes and farms, and will ultimately be good citizens.

THE BUILDING AND LOAN.

The State League of Building and Loan Associations has just held its third annual meeting at Winston-Salem, and it has been a success in every particular. The gratifying results of the meeting move the Charlotte Chronicle to say:

"The meeting held at Wrightsville three years ago for the organization of the State League of Building and Loan Associations looked a little bit discouraging to all except the indomitable spirits behind it. Their faith in the work has had its reward. The meeting of the association at Winston-Salem this week shows that it has pulled over the hill and is on a level speedway. It is one of the best organizations in the State. The Chronicle is gratified at its success. The spreading of the building and loan sentiment throughout the State by this league, will, in practical results, equal the building of cotton mills, and that is saying a great deal."

We are sure the people of Wilmington will appreciate what our esteemed Charlotte contemporary says. If any two places in North Carolina can testify to the truth of what the Chronicle says of the vital importance of building associations they are Wilmington and Charlotte. Both these Carolina cities have building and loan association methods down to a fine point, and each have strong institutions that have been a great force in city building. There is no telling what a strong, well conducted building and loan is worth to a town, and its comparison with the importance of a cotton mill is not a bit overdrawn.

In another article the Chronicle says:

"The growth of the building and loan interests in the State is clearly set forth in the annual report of Mr. S. Wittkowsky, president of the State Association of Building and Loan Leagues, made today. In 1902 there were but twenty-seven local associations in the State, representing shares to the par value of $1,773,000. At the present time there are sixty-five associations in the State. Fifty-two of these report shares to the value of $8,542,700, an increase of four hundred per cent. in three years. This is indeed a remarkable growth, and, as the president of the association says, it represents publicity and persistence on the part of building and loan organizers. That it has accomplished this much in the short period of its existence is very much to the credit of the State League of Building and Loan Associations and proves that it constitutes a force of much good throughout the State."

Every town and village ought to have its building and loan association or have a branch of one of the strong associations in the larger cities.

THE PANAMA TROUBLE.

The Star's Washington dispatches on Wednesday told us of the call upon Secretary of War Taft and Secretary of State Root by delegates of the Liberal Party of Panama who urged that the United States send agents to Panama to see that a fair election for national officers is held. The Washington authorities quite correctlly took the position that this government had no international right to so interfere in the affairs of another government. Anticipating the action of the Washington government, the New Orleans Picayune of June 5th, says:

"The delegation representing the Liberal Party of Panama is on its way to Washington for the purpose of requesting the government of the United States to take steps to insure a fair election in the Republic of Panama. While this unusual journey of a number of foreigners indicates plainly that the people of Panama look upon the United States as the virtual suzerain of their country, it is quite evident that the Roosevelt government, as ready as it usually is to set aside the spirit of our institutions and constitution, cannot actively interfere in the political affairs of Panama without annexing that little Republic. Even were it lawful for this country to intermeddle in the internal affairs of a foreign State, it would still be unprofitable for this country to concern itself in the factional politics of a little community like Panama, over which this country has no direct control.

"It is true that the Washington government has dispatched the cruiser Columbia to Colon with a battalion of marines to supplement and re-inforce the marines already stationed on the isthmus, but it is carefully explained that the marines are at hand not to interfere with the internal politics of Panama, but to insure peace and public order. While the United States will not interfere in the Panama elections, it will put down with a firm hand any attempt at disorder. Revolution and upheaval are privileges common to independent countries which Panama is not to be permitted to enjoy. Her liberty is restricted to that extent, because of the necessity this country is under of preserving complete peace and quiet along the route of the proposed Panama Canal."

However, if we can go into Santo Domingo and collect the revenues and pay off the turbulent negro republic's debts, why can't we sit at the polls and keep our eye on the ballot-boxes in the Latin republic of Panama?

Clarkton Express: We are sorry to hear of the death of Mr. Walter J. Powell, which occurred suddenly at his home at Henderson Monday. Mr. Powell married Miss Bridger, of Bladenboro, a sister of Mrs. N. Singletary, of Clarkton, about three years ago. The burial was at Bladenboro Tuesday.

CURRENT COMMENT.

—With 50 000 women demanding his resignation, it looks as if Senator Smoot is entitled to a little sympathy from the man who has only one woman fussing with him.—Washington .

—"Butler must be a better man than he is given credit for, or the University students a lot sorrier than I thought they were to invite him to address them," said a well known citizen this morning, and he is not a politician either. A good many men are of about the same opinion.—Greensboro Record.

[illegible]me to The Record's attention that members of the dispensary investigating committee had taken double pay for days in which they held meetings during the [illegible]n of the legislature, The Record [illegible]s [illegible]ed they had no moral right to such double pay and felt certain the people of the State would so look upon it, but, as a majority of the members of the committee are lawyers, The Record rather expected to find they had some slight legal right to make two days out of one so as to multiply their salary by two. But, closer study of the proposition inclines The Record to the opinion that legal as well as moral right to double pay was absolutely lacking.—Columbia Record.

—The Wilmington Star quotes The Chronicle as follows: "Gaston county is building good roads by contract labor. The Gazette says that about 25 or 30 miles or roads have been surveyed and the surveys are open to the inspection of bidders. Of course, convict labor is cheaper, but perhaps it is not available in Gaston. The pluck of the county, therefore, in building roads by contract, is to be admired." And it asks: "Is convict labor cheaper than the contract system?" Very much cheaper. Convict labor calls for no expense other than that of feeding and guarding the convicts. Where the system of convict road working is operated on a proper basis, as in Mecklenburg county, the expense of road building is perhaps 50 per cent. less than by the contract system.—Charlotte Chronicle.

—A recent British Bluebook presents the annual military expenditure of the several great powers, exclusive of war expenditure, as follows: The United Kingdom, $157,000,000; India, $100,000,000; France, $127,000,000; Germany, $161,000,000; Austria-Hungary, $87,000,000; Italy, $57,000,000; Japan, $24,000,000; Russia, $194,000,000, the United States, exclusive of pensions, $115,000,000, and including pensions $255,000,000. The United States, it thus appears, spends more than any other Government in the world for military purposes, most of its military expenditure being for pensions. Whatever the object, its military burden is the heaviest in the world. British colonies cost net some $31,000,000 yearly, while the colonies spend on their own defense some $18,000,000 yearly—Baltimore Sun.

TWINKLINGS.

—Him—May I kiss your hand? Her—How selfish you are! Where do I come in?—Cleveland Plain Dealer.

—Have You Ever Noticed It—"Pa, what's horse sense?" 'It's what a good many people who make donkeys of themselves claim to have."—Chicago Tribune.

—Old Millions—Oh, my dear Miss Youngthing, if you'd only marry me I would die happy. Miss Youngthing—Yes, but would you die immediately?—Boston Transcript.

—Young Man—In the bright lexicon of youth there is no such word as fail, Old Man—I suppose not, but as your education advances you get a different sort of lexicon.—The Bohemian.

—Mrs. X.—So you refuse to pay my milliner's bill, do you? Mr. X. Yes, my angel! Mrs. X.—Under the circumstances, I don't see why you call me angel. Mr. X.—Well, angels never wear bonnets.—American Spectator.

—Preferred the Longer Word—"Did you ever notice what a passion Mrs. Glibly has for using long words?" "Yes, the very first proposal of marriage she received she said 'yes' instead of 'no'"—Cleveland Plain Dealer.

—"Why do the papers always call us 'sweet girl graduates'?" giggled one of them. "Oh, I suppose they know we have been stuffing with fudge for four years," answered her companion, reaching for another piece.—Philadelphia Ledger.

SPIRITS TURPENTINE

Governor Glenn will deliver an educational address in Clinton next Thursday at 10:30 o'clock.

Clarkton Express: Mr. O. L. Clark, who has been quite sick, went to Jackson Springs Tuesday to recuperate. Mrs. Clark accompanied him.

Wilson special, June 6: Nearly two hundred Italians arrived here this afternoon to work on the Raleigh and Pamlico Sound railroad. Three hundred more are expected. Work will begin here tomorrow toward Raleigh.

Clarkton Express: Mr. L. L. Bennett has resigned as Seaboard agent here and is succeeded by Mr. C. C. Dunn, who a few years ago was agent at Bladenboro. Mr. Bennett, we learn, will very probably go back to the Coast Line.

Clarkton Express: The congregation of the Presbyterian church at this place has decided to build a handsome new church somewhere near the center of the town. A committee consisting of Messrs. G. H. Currie, D. A. McKee, O. L. Clark, J. W. C. Ballentine and D. M. Buie will select the site and arrange for building.

Greensboro Industrial News: Coin collectors are becoming numerous in Greensboro. Notice was made in these columns some days ago of a silver half dollar with the date of 1795. Now Robert A. Gray comes forward with a bright silver dollar of the same date, 1795, and in the official coin list they are each quoted as worth $500.

Sampson Democrat: While riding along on his plow-horse the other day Mr. V. A. Merritt, of South Carolina, was startled by a sudden noise that sounded as if a lick had been made at him, and sure enough there had been, for no sooner than he looked the tail of a coachwhip was popped at him a second time. The snake then ran up a tree, when Mr. Merritt went for his gun and shot him. He was seven feet long.

Statesville Landmark: A negro woman, hailing from Salisbury, had on exhibition at the station Saturday night a dwarf baby which attracted much attention. The baby was five weeks old, was about 6 inches long and would weigh not over two pounds. Its head was about the size of a good big marble and its hands were no larger than the thumb of the average man. Notwithstanding its diminutiveness, the baby seemed to be healthy and strong.

The commencement exercises at the State University are progressing with more than usual interest at Chapel Hill. Owing to the absence of Governor Glenn Wednesday morning the address of the day was not delivered by him as had been announced, but by Dr. F. P. Venable, president of the university. The feature of the day was the conferring of the degree of LL. D. on William Louis Poteat, president of Wake Forest College, and Henry Louis Smith, president of Davidson College.

Salisbury Post, June 5: After waiting nearly nineteen years justice has scored on Peter Dodd, a Mt. Ulla negro. During all these years Dodd has roamed the country ever fearful that he might be taken but never far away from the scene of his crime. Sheriff Julian had a message this morning that Dodd had been captured at Mooresville and he left on the western train at 9 o'clock for his man. An investigation of the court records shows that on December 10th, 1887, Dodd, with a razor, cut the throat of Martha McConnehaugh, a negress.

Sampson Democrat: A loss which will be felt by all the people in Clinton, is the removal of Rev. F. N. Skinner and family, who left a few days ago for their new home, Fayetteville. This family have always been recognized as one of the very best. They have been good neighbors to all who have lived near them, and have always sought to do their very best to promote every good cause for the people of our town. Mr. Skinner was loved by members of every denomination. We all feel an interest in him and his family's welfare and wish him success in his great work, health and happiness for them all.

Sampson Democrat: The Democratic Executive Committee, of Sampson county, at its meeting last Saturday, elected H. E. Faison, Esq., as chairman for the ensuing two years. Messrs. A. McL. Graham and J. A. Beaman, Secretary, and Assistant Secretary, respectively, which is a splendid organization, and will doubtless give universal satisfaction. Chairman Faison is a man of discretion, executive ability, extended acquaintance, and universally liked; all of which eminently fit him for the important position. It may be said in advance that the Democratic campaign in Sampson will be conducted in a dignified and zealous manner, just as has been the case with the retiring chairman, Mr. Pugh, who by the way, has been a good one, as all know.

Goldsboro special, June 6: The Republican county executive committee met in this city today at noon and ordered the county convention for the election of delegates to the State, congressional and judicial conventions to be held in this city on July 6th. The committee unanimously adopted the following resolutions introduced by John I. Mezingo: "Resolved, That we, the committee, request the Hon. Spencer B. Adams to be present and address the county convention, and resolved, further, that we endorse the action of the Republican State Executive Committee in electing Hon. Spencer B. Adams to fill the unexpired term made vacant by the resignation of Hon. Thomas S. Rollins, as chairman."

Dunn Special, June 6: Roscoe Barber, the night operator at Benson, while stepping from a freight train last night got his foot hung and was carried by the train some distance before his condition was found out. He is right badly bruised and injured but not fatally so. Early this morning on the Coast Line between Benson and Dunn John Henry Stewart and Richard Norris were struck by a train, and Stewart is expected to die at any moment. His head is gashed, bruised and crushed in several places and he is unconscious. With serious concussion of the brain he is not expected to live through the day. Norris was not so severely injured. He received several injuries in his back. They are both reported to have been drinking. After the accident Norris managed to make the trouble known to a passer-by but was unable to give any of the details. Both are married men and have been working with the Wilson-Dupree Lumber Company, of this place.

TENNIS IN VIRGINIA.

Wilmington Players Show Up Well in State Tourney.

Lyons, of Baltimore, and Messrs. R. H. Gwaltney, of this city, are in Norfolk playing in the Virginia State tennis tournament. The Norfolk Landmark in speaking of the presence of the Wilmington players, says:

"The new arrivals for the tournament of yesterday were Mr. B. B. V. Lyons, of Baltimore, and Messrs. R. H. Gwaltney and C. E. Taylor, of Wilmington, each of whom is a splendid player. Each match in which the strangers entered was contested with fine play.

"Mr. Gwaltney, of Wilmington, played a fine game against Mr. Robert Tomlin, of the Greenway Club and finally defeated him after a hard fight. Mr. Gwaltney may feel good over this, as Mr. Tomlin is one of Norfolk's best players.

"The fist match was between Mr. C. E. Taylor, of Wilmington, N. C., and Mr. L. D. Scott, of Atlanta, Ga., which same resulted in a victory for Mr. Scott by a score of 6—1, 6—3.

"The second match was between Mr. Gwaltney, of Wilmington, N. C., and Mr. R. W. Tomlin, which Mr. Gwaltney was the winner by a score of 6—4, 6—2, 2—6."

A rain storm interferred with the tournament Wednesday and only one match was completed.

YOUNG MAN DISAPPEARED.

Draughtsman Unceremoniously Left For Parts Unknown.

In architectural circles there is much speculation concerning the whereabouts of a young draughtsman who came here a month ago from Jacksonville, Fla., secured work in a local architect's office and left Saturday night between suns, carrying with him a dress suit case or two and a set of handsome instruments which he obtained from the office of another architect and belonging to a young man employed there. The stranger gave his name as C. Phelps and claimed that he was a graduate of Lehigh University. He was really a fine draughtsman and was no doubt an artist in his profession. He left his boarding house at Mrs. Willis', No. 211 Grace street, Saturday night and that was the last seen of him. He was about 25 years of age and is originally from the North.

GOVERNOR REFUSES PARDONS.

Two From New Hanover—Changes in Collector's Office.

(Special Star Telegram.)

Raleigh, N. C., June 7.—Governor Glenn was in his office again today after three days' illness. On arriving at the office this morning he gave out for publication his reasons prepared while confined at the mansion yesterday for refusing pardons for two prisoners serving terms; also for granting a conditional pardon. The conditional pardon is to Job Jackson, serving twelve months in Robeson county, for retailing.

Oliver Wade, serving two years for stealing a horse in New Hanover county for temporary use, was refused because Judge Council, a humane and careful judge, after hearing all that could be said in Wade's favor, imposed the sentence.

Joseph Davis, New Hanover county, serving twenty years for burglary, pardon refused because neither the trial judge or the solicitor recommend the pardon.

Several changes took place to-day in the office of Internl Revenue Collector Duncan, J. E. Cameron leaves the office desk to take the field in place of Deputy Grimsley, who is sick. W. T. Delemar is promoted to the desk vacated by Mr. Cameron and Mr. Delemar is succeeded by E. N. Gattis, of Chatham county.

TRAFFIC IN HACKS.

Special Officer Detailed to Duty at Front and Princess.

Officer M. P. Newton, who has been detailed to the special duty of looking after the congested traffic of vehicles of Front and Princess streets, yesterday afternoon arrested a number of hack drivers charged with blocking the street in front of The Orton by allowing their turn-outs to stand there for an unreasonable length of time. Two of the defendants are A. H. Lamb and Pompey Lyon, well known drivers, who are understood to have taken legal counsel as to their rights in the use of the public streets and an interesting hearing before the mayor to-day is likely to result. The other two defendants besides those named are Curtis Highsmith and George Inman, all colored. Officer M. E. Guy arrested one of the last named on a warrant after he had driven off from in front of The Orton.

To Sentence Mutineers.

Judge Purnell and family will be here next week to spend some time at the beach and while here, His Honor, will call a special term of the U. S. Court on Tuesday for the purpose of re-sentencing the negro mutineers, Adams and Sawyer, whose appeal to the U. S. Supreme Court resulted in a stay of their execution as originally appointed. Henry Scott will hang on July 6th. It is probable the date of the execution of the others will be set some days later. The hanging of the three men will take place most probably on the scaffold inside the jail, which has never been used.

Shipping Yesterday.

The schooner C. C. Lister, Capt. Moore, cleared yesterday for New York with cargo of something like 300,000 feet of lumber consigned by the Angola Lumber Co. The tug Standard arrived yesterday towing a barge with products for the local branch of the Standard Oil Company in this city. She expects to proceed South with the barge to-day.

GEORGETOWN DEPOT WRECKED.

Unexplained Explosion in Baggage Room of South Carolina Road.

Florence, S. C., June 7.—A special to the Times from Georgetown, S. C., says: "A terrific explosion occurred at the Georgetown and Western railroad depot this morning at 10 minutes to six. The shock was so great that it awakened many sleepers from their morning nap.

L. L. Bollock the baggage master is very painfully, but not necessarily seriously injured. C. C. Farilly who was at the depot on the outside of the platform and a negro brakeman were also slightly injured.

From the baggage room going south, the depot is a wreck. The force of the explosion went south, about 30 feet of the roof is torn away. Pieces of the building were thrown several hundred feet away. Glasses in the stores the street and also on the passenger train were broken.

Some of the officials of the railroad think it was either an infernal machine or dynamite in a trune in the baggage room.

House Roof Burned Off.

An alarm from box 112 at 2:30 o'clock yesterday afternoon called the Fire Department to No. 508 Dickinson street, a two-story frame dwelling, owned and occupied by J. H. Whitehead, colored. Sparks from a chimney had set the roof on fire and before the blaze could be controlled a damage of about $200 resulted. The contents of the dwelling were removed and were only slightly damaged. There was no insurance against the loss.

A LITTLE TALK ABOUT CRAWFORD SHOES!

We have found out, time and time again, that the Crawford Shoes talk for themselves even better than we can talk for them. Yet they are just so Good that we can't help but talk about them a little now and then. Ask any of your friends, whose shoes have that exclusive custom look, where the style and comfort stick out in every part, what shoe he wears. We know he will say nearly every time, "They are Crawfords."

We can safely assert that every point of Shoe excellence known to the world's greatest shoe producers has been embodied in it.

It seems incredible that, for the price, we are able to sell a shoe for style, comfort and wearing qualities, that will entirely eclipse the best efforts of the high priced custom makers.

Comfort in a dress shoe is often hard to obtain; that is not so if it is a Crawford.

We can fit you with a new Crawford so that it will feel like an old shoe, but it will ever look like a new one.

PACKING HOUSES DENS OF FILTH

(Continued from Page Eight.

found and suggestions for remedies, then to wait thirty days and then come back and see if conditions had not been bettered. This, he indicated, was to prevent injury to the trade.

Mr. Neill said he replied that he was not authorized to make any trade or deal, that he did not know what the President's plan was, but believed it was to secure adequate legislation.

Dr. Dyson, he said, in a letter stated he was authorized to speak for the larger Chicago packers. In this letter he emphasized the damage that would result to the farmers of the country by discrediting the sanitary conditions of the packers. The letter gave assurance that the reforms would be made. Mr. Neill said he submitted these letters, that the whole chapter might be completed and for the further reason that Mr. Wilson had made repeated statements that the packers would welcome legislation. Mr. Neill denied the statement of Mr. Wilson that the floors were scrubbed daily. The dirt of some of the rooms was caked on the floor and had not been washed for weeks.

Again Mr. Neill was asked:

"You take direct issue with Mr. Wilson on the fact that these rooms were not cleaned?"

"Yes, sir, I do. There were floors there that were black. There was no ventilation. These rooms were not 'chilly rooms.'"

"How about the cooking rooms?" asked Mr. Lorimer.

Mr. Neill said he remembered in particular one cooking room was dirty and he remembered walls, particularly in the entrances, that were sticky with dirt, and a pillar that you could scrape dirt from with your knife. There were rooms with rafters and ceilings which had not been whitewashed in months.

In the boning room, Mr. Neill said he had seen dirt. In this connection he took issue with Mr. Wilson's statement yesterday. One instance he remembered specifically in the Nelson Morris house. He saw one of the men who had just finished his boning walk over the dirty floor to a pile of meat on the floor, climb on the pile with his feet, knees and hands, pick up a piece and throw it fifteen feet on the floor to his bench, and as the dinner signal sounded at that time, he saw men climb up on their tables get their lunches and sit down on their tables to eat. This he said was directly under the eye of the superintendents. Mr. Neill said the papers heralded their arrival in Chicago and their presence in the packing house was known daily.

Chairman Wadsworth took up the statement in the report. "We saw meat shoveled from dirty floors into rotten boxes and pushed from room to room.

"How do you know they were rotten? Did you test them?"

"We felt them and smelled them. There are floors there," he continued, "which all the seas could not wash the dirt from."

Mr. Neill denied that the unventilated rooms applied to the cold storage rooms, as indicated yesterday by Mr. Wilson.

When questioned by Representative Scott as to what he meant by the "ordor of decayed meats," in his report, in view of the statement of Mr. Wilson that from a business proposition decayed meats could not be left around, Mr. Neill said:

"It was certainly an order of decayed meat," persisted Mr. Neill. "It may have been from the rotten meat soaked wood."

This sentence in the report was read and questions asked. "In a word, we saw meat shoveled from filthy wooden floors, piled on tables rarely washed, taken from room to room in rotten box carts, in all of which processes it was in the way of gathering dirty, splinters, floor filth and the expectoration of tuberculosis and other diseased workers."

"How do you know it was tuberculosis expectoration?" asked Chairman Wadsworth.

"I thought so," answered Mr. Neill. Then amplifying he said he saw men there whom he believed were tubercular. The slipping of a hog into a privy was made the subject of a colloquy between the witness and Representative Brooks, of Colorado.

Mr. Neil said he saw the hog fall and identified a picture of the privy. It was a very filthy one; the hog was put up on the rack and he believed the hog was never cleaned.

At this point Mr. Wilson was allowed to state that there were men scraping and cleaning these hogs and that none were allowed in the cooling rooms that were not perfectly clean.

"This was not a case for scraping, it was one for cleaning with an antiseptic fluid," replied Mr. Neill.

Chairman Wadsworth persisted that this hog case contained the essence of the whole report. The statement was positively made in the report that the hog was not cleaned, he said, when as a matter of fact, Mr. Neill had admitted he had not followed the hog to ascertain absolutely the fact he had stated.

Going back to the statement regarding the tuberculosis spittle on the floor, Mr. Wadsworth said:

"You say other diseased persons also, what other diseases?"

"I am not willing to state."

"Well doctor," said Mr. Lorimer, "you have made these statements to the world in a report which the President has sent to us and which has done incalculable injury to this industry and we want to know the facts."

"I have made this report and am willing to stand on it," replied Mr. Neill. "There were smells of medicine on these men that you get in dispensaries for certain diseases."

Mr. Neill, here asked to make a statement. It was six weeks ago that he was there. He saw hundreds of things that did not go into his report. As to the rubbish that went into the meat he did not specify "rubbish, a nail; rubbish, a piece of rope."

"I saw rubbish go into the meat and said so." As to tuberculosis he had made observations and also had interviewed physicians who had told him the work tended to produce that disease.

As to the tendency of the work in the packing houses, to lower the morals, Mr. Neill said he believed this was the case.

"An instance," he said "a young girl 16 or 17 years old had to walk across a long room filled with men to go into a water closet—this does not tend to morality, especially when some of those men are of the lowest type—I will not say the workers are immoral."

When Mr. Lorimer asked the witness if he had any complaint to make as to his treatment as a witness, he replied that the treatment of the witness on yesterday by certain members of the committee and the treatment of himself today by these members was strikingly different, especially when the testimony of Mr. Wilson tended to raise a direct question of veracity between himself and Mr. Reynolds and Mr. Wilson.

"That's just what I think too," asserted Representative Lamb, of Virginia, warmly.

At this point Mr. Henry, of Connecticut, declared that this report came directly from the President. The President was responsible for it and stood sponsor for it. In view of that it was, he believed, highly discourtrous to question it.

Mr. Neill commended the government inspection, but would not commit himself on the State inspection.

Every suggestion made to correct the "absolutely brutal indifference" which the employes and especially the young girls were treated, was met by the statement, "Oh, they don't mind that."

The committee adjourned until tomorrow.

Oxen In the South.

The ox is essentially the moving power of the lumber world in the south in spite of the fact that every big mill throughout that section owns and operates from twenty to thirty-five miles of railway, wherewith the logs are brought in. A yoke of oxen, work animals, is worth $100; the yoke itself, with bows and all appurtenances, $250, and then there are to be added about forty feet of two inch chain, a cart hook and a good ax. Five yoke constitute a team, and on a good road, with a good team, using a modern up to date wheel wagon, one can haul seven tons, 14,000 pounds. — Detroit News-Tribune.

Decline of Matrimony.

Dr. Prinzing of Berlin, writing in the Zeitschrift fur Sozialwissenschaft, declares that it is not true that the proportion of old maids and old bachelors is increasing in European countries. One is perpetually told by writers, especially those representing the advanced woman movement, that marriage is decreasing and that unmarried persons are relatively increasing. As a matter of fact, this is only the case in Sweden, France and Ireland. In Germany the number of bachelors steadily decreases, and only in certain limited areas can any increase of old maids be certified.

Have the Billiard Habit.

Natives of New Zealand are victims of the billiard habit. The inspector of native schools in New Zealand attributes the lax attendance of the young Maories to the fact that their parents "spend their whole time playing cards or billiards." He alleges that the children are often kept up all night billiard marking and are of course utterly unfit for school work next day. He says he encounters billiards everywhere on his travels. The game is even played on the roadside.

New to Him.

At a musical comedy in London from his seat in the stalls Clyde Fitch noticed a young man in one of the boxes laughing uproariously. His companion was a critic, and Mr. Fitch said to him, "That chap in the box seems to be enjoying himself." "He is the author," said the critic. "Well, then," said Fitch, "I think he ought to have better taste than to laugh so loud." "Oh," said the critic, "he is the author, but he never heard these jokes before. They were put in by the comedian."

The Smallest School In England.

It is said that the highest mountain, the deepest lake and the smallest church in England are to be found at Wasdale Head, Cumberland, and now it would appear that the smallest school is also to be found there. There are nine scholars, and of these five belong to one family. The youngest is nine years of age, and they have to walk a distance of two and a half miles in order to attend school.

MAKE SALT FROM THE OCEAN

All the salt produced in California is obtained by evaporation from ocean water, there being but few salt springs or wells. Probably not less than twenty-five large salt plants are in operation around the lower arm of San Francisco bay. It is estimated that the total output of salt per year in Alameda county alone reaches 100,000 tons, while not less than 50,000 tons are annually produced in other parts of the state. The salt produced from sea water has no superior in the world in strength and purity. There is every grade produced, down to the very finest table salt, by certain refining processes. The salt output of California is shipped to the northern states of the Pacific coast, British Columbia, Mexico, Central and South America, Hawaii, Japan, Russia and even the Philippine Islands.—Technical World.

Day and Night Doctors.

Physicians in Germany propose to divide the day and night between them. They object to being subject to the call of their patients at any hour of the twenty-four. The patient is not to be left in the lurch, however. His opportunity to spend his money on medical attendance is not to be curtailed. The German doctors propose, as a matter of simple justice to themselves, a day of twelve hours. This means night and day shifts, and as doctors need rest the same as all other human beings and can do their best work only when they have it, the change proposed seems to be as clearly in the lay interest as in that of the profession.

I feel sure if you should see our Laces, you would be glad to give us an order.

ROYAL MUSLIN UNDERWEAR—We have secured the exclusive agency for the Royal Muslin Underwear for this city. Our sales since selling these goods, have increased about five times what they used to be, and today, I think this department stand at the head of any department of its kind in the city.

Every customer who buys the Royal Muslin Underwear is well pleased. Every garment is absolutely made correctly. Every seam is properly felled with no raw edges. Every customer brings another customer, and to-day we are selling Underwear, and we want to sell you yours.

We have one young lady who gives this department her entire time.

Ladies may call for what they want for we have got the goods from the cheapest to the best.

For Muslin Underwear, go to Gaylord's, get suited and save money.

LADIES' SHIRT WAISTS —— We have the short sleeves and the long sleeve Shirt-Waist in silk from $3.75 to $5.00 a waist. We also have a beautiful assortment of Lawn Waists from 50c. to 75c. and up to $2.00 each.

UNDERSKIRTS——We control the agency for the Elite Brand. The goods are surprisingly cheap and beautifully made. You can buy a beautiful underskirt for $1.00.

The Russeleen Skirts rustle better than Taffeta Silk, and we are selling them for $2.00 and $2.50 each.

The Elite Silk Petticoats are absolutely guaranteed not to rip. They are beautifully made from the very best quality of Taffeta Silk, and the prices are from $5.00 to $8.00 each.

BATH SUITS——The season has come for Bath Suits and we have an immense quantity placed on sale for Women and Children—Men and Boys. We also have the shoes, caps and wings.

If you will see our prices on Bath Suits, we feel sure that we can sell you one. We have a large variety in all prices, styles and qualities.

HAMMOCKS——Take life easy; Gaylord has hammocks to sell, and the prices are from 98c up to $3.50 each.

If you wish a fine Hammock or a cheap Hammock, give Gaylord a chance on the sale. He buys direct from the factory and there is no middle man to reap a profit. His prices are absolutely right.

Have you seen the Beautiful Decorated China Breakfast Set that Gaylord is giving away with punch cards. With $1.00 and a punch card filled out, Gaylord will give you one Decorated China Breakfast Set of 31 pieces, worth at least, $3.50.

He wants your trade, offers inducements in big values and gives away presents free.

Remember the place on Front street.

HIGH RAILWAYS IN THE ALPS

One Hundred of Them in Little Republic of Switzerland—Carry Tourists to Mountain Tops.

Switzerland is the home of mountain railways. With an area not larger than one-third of the State of New York, there may be counted about a hundred railways for the sole purpose of carrying passengers to mountain tops varying in height from a few thousand to six or eight thousand feet. The month of August, 1905, witnessed the opening of a railway carrying tourists even far above these altitudes, beyond the clouds, to 10,500 feet; and, when completed, its highest point will reach nearly 14,000 feet above the sea—at the top of the famous Jungfrau, the queen of the Berner Oberland.

There are other mountain railways on the globe attaining much higher altitudes than ever this; and on the Ovoya Railway of Peru, I myself traveled a considerable distance above 16,000 feet; but most of these roads were built for the development of commerce and mining industries. The Swiss mountain railroads, however, are almost exclusively in the service of tourists only, numbering in Switzerland alone not far from 1,000,000 every year. They come to admire the scenic wonders of the little country on the roof of Europe, or to seek shelter against summer heat at the many mountain resorts.

The majority of these mountain railways are paying investments. Switzerland, being a country of mountains, is consequently also a country of water courses fed by the inexhaustible store of snow and ice covering many square miles of the Alpine chains. Alaska icefields are bedded in between the peaks right in the heart of Switzerland, and although a great deal has been written about the general recession of glaciers, which in some instances amounts to a hundred and more feet year for year, such losses are quite insignificant compared with the enormous extent of these ice deposits. A number of them have depths of several thousand feet, with millions of tons of solid, hard-frozen ice, continually supplied from fresh snowfalls above. They feed the Rhine and Rhone, Po and Danube, during the dry summer months, and the many mountain streams of Switzerland, forming beautiful cascades and falls and rapids, furnish the power which carry tourists in comfortable railway carriages to the very tops from which they themselves come. They are led to turbine pits, drive wheels and generators, and are thus converted into electric power.

The Swiss, having no coal deposits of their own, have become acknowledged experts in this branch of technical engineering, furnishing turbines and electric plants for the whole world. Thus, for instance, the gigantic turbines at Niagara Falls many of which generate forces of from ten to twelve thousand horsepower each, have been constructed almost without exception by Swiss firms.—Ernst Von Hesse Wartegg, in the June Century.

Curtain Rod Substitute.

Use quarter inch iron wire instead of brass rods for the hanging of sash curtains. For the shams, the mantel and closet curtains and all the little extra "shirrs" put up in house decoration it answers just as well and is about one-fifth the price. It is necessary to have a little bottle of gold paint and to "wash" it, both for the sake of looks and to keep it from rusting.

For a Sprained Ankle.

For a slightly sprained ankle, if no ligaments are torn, the treatment is simple. The injured ankle should be bathed in water as hot as can be borne and rested on an elevated cushion or a chair for a day or two, with hot compresses. When able to bear the weight the ankle should be firmly bandaged with a figure 8 bandage for several days.

Our Good Friend, Salt.

Salt is said to be good as a tooth powder, as it whitens the teeth and hardens the gums.

A pinch of salt on the tongue, followed in ten minutes by a drink of cold water, is also said to cure a headache.

A pinch of salt in a glass of warm water is good for bathing weak or tired eyes.

Ointment For Pimples.

A good ointment to be used for pimples is made of five grams of lanolin, five grams of sulphur precipitate, two and one-half grams of oxide of zinc and ten drops of extract of violet. When the skin is free from irritation give it a daily treatment with a good face brush, hygienic soap and warm water.

Care of the Hands.

Unless the hands are thoroughly dried after washing in cold water they will almost invariably be chapped. Boracic ointment, cold cream or glycerin rubbed well into the hands before going to bed will keep them in good condition, and a pair of loose gloves drawn on after anointing is still better.

HARRIS LITHIA WATER

Discriminating Physicians Champion

Harris Lithia Water

Owing to the greater quantity of Lithium contained and its consequent superior value as a high grade mineral water, physicians have declared Harris Lithia Water to be nature's sovereign remedy for relieving and preventing diseases of the

KIDNEYS AND BLADDER

Harris Lithia Water is a trifle more expensive, but *considerably more effective!* You may choose. We have hundreds of testimonials ringing with sincere praise from physicians and patients who *know* from experiments with many mineral waters, the curative *certainty* of this one.

HON. JAS. F. ALEXANDER, *President Atlanta Board of Health*, says: "I have found Harris Lithia Water an *exceedingly valuable remedy* for persons suffering from Kidney and Bladder troubles. Therefore, I take great pleasure in recommending it."

THE COTTON MARKETS.

New York, June 7.—The cotton market was more active to-day and after some early irregularity ruled steady at a net advance to 2 to 7 points. Sales were estimated at 200,000 bales.

The market opened steady at a decline of 2 to 4 points in response to lower cables, favorable weather reports, and expectations of a bearish week-end statement as a result of the short week in the Liverpool market. But there was very little cotton for sale here on the decline and the market soon rallied on covering of shorts and buying of July by the bull leaders.

July led the advance and sold up to 10.62 or six points net higher while other months were 2 to 3 points higher. Demand seemed to decrease on a scale up, and toward mid-day the market re-acted to about the closing figures of the previous day, but later rallied again on reports of large spot sales from the local stock. The close was within a point or two of the best. Sales of 6,500 bales were reported in the local spot market for consumption and export.

Cotton receipts at the ports to-day were 6,011 bales against 11,038 last week and 10,053 last year. For the week 60,000 bales against 76,957 last week and 112,430 last year. To-day's receipts at New Orleans, 1,371 bales against 2,956 last year, and at Houston 464 bales against 4,092 last year.

Futures opened steady and closed quiet. American middling, G. O. C.: June, 5.76d.; June and July, 5.76d.; July and August, 5.76d.; August and September, 5.69d.; September and October, 5.63d.; October and November, 5.58d.; February and March, 5.59d.; March and April, 5.60d.

Queerly Procured Evidence.

Many years ago a ship was chased at sea on the suspicion that she was a slaver. During the pursuit her captain dropped something overboard. When overhauled the old tub was taken to Port Royal for trial. There was nothing on board to sustain the charge of slave dealing, and there seemed every likelihood of its owner recovering damages for illegal seizure and detention. But another ship had passed in the night in the wake of the others. She had witnessed the chase and flight, but had stopped to catch a shark by the way. In the stomach of the shark the sailors found a tin box. In the box were the papers of the fugitive vessel. These proved her to be a slaver of the most unequivocal character, and upon their evidence she was condemned and confiscated.

Machinery Tones.

Engineers judge of the condition of their machinery by the tone it gives out while running. Every engine, whether stationary or locomotive, has a particular tone of its own. The engineer becomes accustomed to that, and any departure from it at once excites a suspicion that all is not right. The engineer may not know what is the matter; he may have no ear for music, but the change in the tone of his machine will be at once perceptible and, being instantly recognized, will cause him to start on an immediate investigation.

Babies and Boots.

Gypsies carry their babies in old shawls slung over their shoulders and tied about the waist. North American Indians carry their babies on the backs of squaws—cradle and all. But the Eskimo women of Labrador carry their babies in their boots. These boots come up to the knee and are wide at the top, with a flap in front. In these the little brown babies live and are happy.

Might Have Been Worse.

Biggs—Castleton was out driving with the Widow Grasper the other day, when the horse ran away with him, and he's laid up in the hospital. Griggs—Well, it might have been worse; the widow might have run away with him.

PACKING HOUSES DENS OF FILTH

Dr. Neill Gives Shocking Testimony Before House Committee on Agriculture

REVOLTING THINGS HE SAW

Executive Board Consists Principally of Pennsylvania Officials—Rebating Gives Way to Community of Interest Plan.

By Wire to The Morning Star.

Washington, June 7.—The House Committee on Agriculture continued its hearing on the Neill-Reynolds meat inspection report today, Thomas E. Wilson, manager for Nelson, Morris & Company, and representing the large Chicago packing houses, continued his remarks on the Beveridge amendment providing for meat inspection.

Aside from the objections he had pointed out yesterday, Mr. Wilson said the only other serious objection was the provision placing the cost of inspection on the packers. "We are now under an expense aggregating $1,000,000 a year for condemnations of animals" he said.

Representative Scott, of Kansas, suggested that it was generally understood the packers so controlled the meat market that they would be able to recoup themselves the cost of inspection.

"We could not," replied Mr. Wilson. "The large packers kill only 50 per cent. of the meat supply of the country and do not control the market."

Representative Henry suggested that the delinqquncies of the packers had placed them in the present position and inquired why should the packers object to paying if the government is to "pull you out of the hole."

Mr. Wilson declared it was not the fault of the packers The packers were willing to comply with any new requirements, but they feel this to be an unjust burden and one they ought not to be called on to bear.

"What is the result on your foreign market of the present agitation?" asked Mr. Wadsworth.

"The result is very disastrous," replied the witness. "Our foreign demand for fresh meats and manufactured products has been practically cut in two. Our foreign competitors are all making the most of this and are getting the benefit of agitation and we are standing the loss."

Representative Haugen, of Iowa, said it was well known that Congress in the past had not made adequate appropriation for the inspection and he wanted to know if it would not be better for the raisers and packers to pay, say four cents a head for the inspection of cattle and two cents for the inspection of hogs.

"It would be better for us to divide up all we have, I suppose, rather than go out of business," replied Mr. Wilson

Representative Henry, of Connecticut, took Mr. Wilson over the Beveridge amendment again fir the recapitulation of his objections.

Mr. Wilson made this statement:

"We feel it is going to be a difficult matter to create a law covering the necessary sanitary regulation regarding the packing houses, that will be constitutional. We feel that such a law would be useful as applied to the products which they enter into interstate trade. We do not want to raise a single question. We want a law enacted. We want a good law and a stringent one. We want the sanitary inspection and we want it thorough. I do not want the impression to obtain that we contemplate any atack on any law that may be passed."

Representative Adams, of Wisconsin, summed up the objections Mr. Wilson had made to the Beveridge amendment. The first was the objection to placing the cost of inspection on the packers; second requiring dates on labels; third, the sanitary requirement which leaves discretion to common carriers to reject shipments if it regards the packing house from which they came as unsanitary; fourth, the use of adjectives describing meat unfit for food; fifth, the restrictions on preservatives, in such form that any inspector might put his own interpretation on what was injurious, and sixth, the requirement that the contents of canned products shall he set forth on he labels.

Representative Henry, of Connecticu , complimented Mr. Wilson for the showing he had made, saying: "I don't think the Chicago packers made any mistake in the selection of the representative they did to plausibly present a somewhat dubious case."

Mr. Neill was then put on the stand.

Mr. Scott, of Kansas, wanted to know the training Mr. Neill had previous had, to prepare him to make the inquiry.

"I simply claim to be a man of average intelligence," he replied. He said he had worked in a Chicago packing house for six months in a university settlement.

"You are a specialist along economic lines?"

Mr. Neill then related a parting interview with Dr. Dyson, consulting veterinarian in Chicago, representing the packers. Dr. Dyson, he said, suggested that Neill and Reynolds go to Washington, make no report, but inform the packers of the conditions

WILLIAM J. BRYAN FOR PRESIDENT

State Democratic Convention of Indiana Enthusiastically Endorses Him

REPUBLICAN PARTY SCORED

Hyprocricy and Treachery to People Denounced in Ringing Words—Policy of Bryan But Carried Out by Roosevelt.

By Wire to the Morning Star.

Indianapolis, Ind., June 7.—Democrats of Indiana in convention to-day adopted a platform strongly indorsing W. J. Bryan for the Presidency and selected a State ticket for all offices except governor and reporter of the Supreme Court. Benjamin F. Shively, of South Bend, former Congressman from the Thirteenth Indiana District, was permanent chairman. Referring to W. J. Bryan he said:

"That which is to-day eulogized and approved as broad statesmanship and enlightened patriotism in Theodore Roosevelt was only a few years ago denounced as re-actionary, revolutionary and unpatriotic in William Jennings Bryan. The after sight of the one is almost equal to the foresight of the other."

The following were nominated:

Secretary of State—James F. Cox, Columbus.

Auditor—Marion Bailey, Liseton.

Treasurer—John Isenbarger, North Manchester.

Attorney General—Walter J. Lotz, Muncie.

The resolutions committee report was read by Samuel L. Ralston, and among other things it said:

"The Democrats of Indiana in convention assembled sends greetings across the sea to that wise and conservative statesman, unfaltering patriot and supero leader, William Jennings Bryan, and pledges its vote in convention and the electoral vote of Indiana to him for President in 1908.

"For nearly ten years the Republican party has been in absolute control in all departments in the National government with power to change unjust conditions and to rectify evils. Yet during that time colossal combinations of capital have dominated the people and have stifled competition and unfairly limited the opportunity of the individual citizen. Wealth thereby illegally obtained has been unsparingly used to control legislation and corrupt elections. No honest effort has been made or is being made by Republican legislation jo cure or eradicate these evils. We denounce the hyprocity of the Republican party which, while pretending to legislate against these conditions, deals only with the symptoms and not with the disease The unfair, tyrannical features of the so-called "protective tariff" have made these things possible, and no permanent relief can be secured until its obnoxious features are removed. We demand that this be done by a tariff for revenue only."

RESTRICTED IMMIGRATION.

Foreigners of New York Petition Against Extreme Laws.

By Wire to The Morning Star.

Washington, June 7.—A committee consisting of Michael F. Conrey, of the Irish Federations; Henry L. Scheuerman and Mark J. Kratz, of the German-American Federation; Joseph Barondess, of the Jewish American Federation; and Celestine Piva, of the Italian societies, all of New York city, and P. P. Hunter, of Jasper, Ala., and D. W. Coons, of Paducah, Ky., of the Southern States Immigration Commission, called on the President to-day to present to him a set of resolutions adopted at a meeting in Cooper Union, New York, on the 4th instant. The resolutions urge that no further restrictive laws as to immigration be enacted, reciting that the present laws are ample for the protection of American citizenship. They further recite that immigration of a desirable kind is needed in this country.

The committee was presented to the President by Representative Bennett, of New York. Later in the day the committee called on Speaker Cannon and presented to him the same set of resolutions. The President did not give the committee assurance as to his position on the resolutions, indicating that he would consider the subject.

PANAMENOS LEAVE WASHINGTON

Failed to Get Uncle Sam to Supervise Their Election.

By Wire to the Morning Star.

Washington, June 7.—Vice President Arosmena, of Panama, and the other three representatives of the Liberal Party who accompanied him to Washington for the purpose of getting the United States to prevent election frauds in Panama, returned to New York today.

Secretaries Root and Taft assured them that it did not seem possible for this country to send agents to Panama to act as witnesses in the aproaching elections and a request was made that the delegates show on what grounds the United States could justify such action.

Another proposition has been submitted by the delegation and is under consideration by the Secretary of State.

TO PROSECUTE DISPENSARY MEN

Investigation of South Carolina's Whiskey Business Unearths Ugly Scandal

OFFICIALS WERE CORRUPT

Members of Board Which Purchased Liquor Were Bribed by Whiskey Men—Governor Orders Proceeding Against Grafters.

By Wire to The Morning Star.

Columbia, S. C., June 7.—As the result of disclosures before the dispensary investigation committee, Governor Hayward today authorized the Attorney General to prosecute H. H. Evans, L. W. Boykin and J. B. Towell, former members of the dispensary board, for malfeasance in office. The commitee adjourned today and the action of the Governor immediately followed.

The investigation of State dispensary affairs has become highly sensational. Last night it was testified by Lewis W. Parker, manager of a large mill in this State, that J. Lanahan, of Baltimore, had confessed to him that although he had paid a member of the dispensary purchasing board $1,500, he was unable to get any business as the brother-in-law of the member in question represented another house. The statement was corroborated today by E. W. Robertson, a banker. It was brought out that the conversations with Lanahan occurred at a hotel in New York where Parker and Robertson were attending a meeting of mill directors.

C. C. Davis, a contractor, swore today that while building a house for Evans at Newberry, he several times saw in Evans' possession large amounts of money, a thousand dollar bill generally being on the outside. On one occasion, he said, he strained his curiosity and had seen as many as three bills of this denomination. Once he had seen Evans with a beaver hat full of money in greenbacks. Evans, he said, had told him that his firends had given him the money and other presents and that these friends were liquor dealers. At that time, he said, Evans was chairman of the purchasing board. Davis further stated he had heard Evans complain that other members of the board were not giving him his share of the orders according to arrangement and that he had laid a trap by which he and Briggs Wilson, manager of a distillery in Columbia, had seen other whiskey men pass rebate money to other members of the dispensary board. Evans and Wilson, he said, were standing on a table looking through a transom.

SENATOR GORMAN LAID TO REST

Funeral Services Simple According to Distinguished Statesman's Request —Roosevelt Sends Flowers.

Washington, June 7.—With simplicity and complete absence of ostentation, in accordance with his expressed wish, the funeral services of the late Senator Arthur Pue Gorman, of Maryland, took place in this city today at 11 o'clock from his late residence, 1432 K. street. Although the funeral was private, the sidewalks of both Fifteenth and K streets were thronged with people, many of whom had come from Maryland to pay their tribute of respect.

Before the services began many prominent men, including Vice President Fairbanks and nearly all of Senator Gorman's closest political associates in Maryland as well as colelagues from the Senate and House, in addition to members of the congressional committees, were afforded an opportunity to view the body. The floral tributes were many and beautiful, among them being a large wreath of water lilies and ferns from President Roosevelt, an immense wreath of orchids, lilies of the valley, roses and other flowers from the Senate, and a large wreath of red roses from Henry G. Davis, of West Virginia.

Rev. Dr. Wallace Radcliffe, pastor of the New York avenue Presbyterian church, which Senator Gorman attended, officiated. The service, which was brief, consisting of scriptural reading, an impressive address, a prayer by Rev. Frederick D. Power, pastor of the Vermont Avenue Christian church, and benediction by Dr. Radcliffe, was held in the presence of about one hundred persons, including relatives, the committees of Congress, Vice President Fairbanks, Governor Warfield, of Maryland, and fourteen active and honorary pall bearers chosen from among Senator Gorman's political friends in Maryland.

The body was borne from the house to the hearse by Hon. Murray Vandiver; Hon. Spencer C. Jones, Mr. F. A. Furst, Colonel Bunchanan Schley, Hon. J. Fred C. Talbott, and Hon. Joshua W. Miles all of Maryland. The cortege then proceeded to Oak Hill Cemetery where the body was placed in a vault temporarily. The services at the vault consisted of prayer by Rev. A. Reid Bird, of Laurel, Maryland, and the commital by Dr. Radcliffe and Dr. Power.

HEPBURN BILL DOESN'T SUIT

Senate Not Satisfied and Again Sends It to Conference Yesterday

MANY STUMBLING BLOCKS

Statehood Bill to Be Taken Up When Rate Bill Has Been Disposed Of—Gross Extravagance at White House.

By Wire to The Morning Star.

Washington, June 7.—After a day devoted almost exclusively to the discussion of the conference report on the railroad rate bill, the Senate decided at 6 o'clock this afternoon to send that measure back to conference. The debate on the bill covered the various questions of free passes, the salaries of the Interstate Commerce Commissioners and the penal provisions of the bill. There were differences of opinion on all these points, but the dominant thought was favorable to sustaining all the Senate provisions.

Senator Foraker gave notice that he would move to take up the conference report on the statehood bill as soon as the report on the rate bill should be disposed of, but afterwards said he would probably not make an effort in that direction until next Tuseday when it is believed Senator Beveridge, who is in charge of the report, can be present.

The bill providing for control of the waters in Niagara river was passed.

The House.

Washington, June 7.—An attack and a spirited defense of the President were the features of a busy day in the House of Representatives, Mr. Brundige, of Arkansas, assailing the items for the Executive Department and the care of the White House and grounds as "grossly extravagant in contrast to days of past simplicity."

Mr. Gosvenor, of Ohio, championed the appropriations in the name of the American people.

The naval appropriation bill was sent to conference, the conferees on the party of the House being Mr. Foss, of Illinois; Mr. Loudenslager, of New Jersey, and Meyer, of Louisiana.

A bill was passed extending the provisions of the act of March 3, 1901, to officers of the navy and the marine corps advanced at any time under the provisions of sections 1506 and 1605 for eminent and conspicuous conduct in battle.

After completing 25 pages of the sundry bill the House adjourned.

WILL FILIBUSTER IN RIGHT STYLE

Leader Williams Notifies Republicans What to Expect if Debate on Statehood is Shut Off.

By Wire to the Morning Star.

Washington, June 7.—The leader of the minority, Representative John Sharp Williams, of Mississippi, told the House today that the minority had not filibustered during the past few weeks but had only resorted to the constitutional privilege under the rules to call for the yeas and nays, to refuse unanimous consent and to have a quorum present. But should the Speaker and the controlling element of the House refuse to grant a vote on the separate provisions of the statehood conference report, then would come a real filibuster. He did not use these words but it is evident that is what he meant.

"If it shall appear that we are to be forced to swallow the conference report in gross, either to vote against it altogether or vote for it altogether, without an opportunity to amend it, without an opportunity being extended to the House to express its opinion on the question, then we will resume the policy of demanding that every constitutional requirement shall be complied with before any legislation is carried on by this body."

This remark of Mr. Williams was lustily applauded by the Democrats.

WARM WIRELETS.

The Senate in executive session yesterday confirmed the following nominations of postmasters: Hugh Paul, Washington, N. C.; Alexander L. McCaskill, Fayetteville, N. C.

The Board of Trustees of Erskine College, Due West, S. C., have conferred the degree of Doctor of Laws upon David A. Munro, editor of the North American Review, of New York.

President Charles Lee Smith and Vice President Kilpatrick, of Mercer University, at Macon, Ga., have resigned and the trustees of the institution have selected Dr. S. Y. Jamison, of Atlanta, as president. It is said that friction has existed between Dr. Smith and other members of the faculty, ever since Dr. Smith was made president of the University several months ago and that the trustees, after an almost continuous session for the last three days, requested the resignation of Dr. Smith.

PROBING AHEAD AT PHILADELPHIA

Inter-State Commerce Commission Finding Out Things About Pennsylvania

IT MANAGES B. & O. RAILROAD

Employes Uncleanly and Diseased Dressed Meats Hawked Around Under Terribly Unsanitary Conditions.

By Wire to the Morning Star.

Philadelphia, June 7.—New light was shed to-day on the motives leading to the abolition of freight rebates by the railroads, when James McCrea, fist vice president of the Pennsylvania Company, which operates the Pennsylvania railroad lines west of Pittsburg, appeared as a witness before the interstate Commerce Commission. Mr. McCrea expressed himself as favorable to publicity in the rating of mines and the distribution of cars. He surprised the Commissioners and their counsel by announcing that for nearly two years and up to the time of President Cassatt's recent departure for Europe, the board of directors of the Pennsylvania Railroad, of which he is a member, had been considering means for eliminating the private car from the lines of the company. He declared the company had concluded that the use of these cars was unwise.

Towards the conclusion of his testimony, Attorney Glasgow asked Mr. McGrea when President Cassatt decided to stop rebating.

"Just as soon as he got control of the Pennsylvania Railroad; that was in 1889," said Mr. McCrea.

"Simultaneously the community of interest plan was adopted, was it not?" was Mr. Glasgow's next question.

Mr. McCrea said he was not certain as to that. He then entered into a lengthy explanation of the rebate system and declared that the directors of other roads were pleased at its cassation. He said he thought it questionable if rebating would have been voluntarily stopped by the railroads.

After replying to numerous questions, Mr. McCrea admitted finally that the rebating stopped when the community of interest plan started. He asserted that the shipper was never so fairly treated as now. He has stable rates and is placed in a fair position with his competitors.

Mr. McCrea also told the Commission that he had resigned from the investigating committee appointed by the diectors of the Pennsylvania following the revelations of the Commission, because he did not want to be in the position of investigating the lines under his jurisdiction. He declared himself opposed to officials or employes holding any personal interests which might clash with their official duties.

Mr. McCrea gave the commission some information which Mr. Glasgow had made several previous efforts to secure. Mr. McCrea stated that in addition to being a director of the Pennsylvania Railroad and the Baltimore and Ohio Railroad, he is also a member of the executive board of the latter company.

Mr. Glasgow asked him if he could name the other members of the executive board. He said the board comprised Captain John P. Green, first vice president of the Pennsylvania Railroad; Samuel Rea, third vice president of the Pennsylvania railroad; John B. Thayer, fourth vice president of the Pennsylvania railroad; President Oscar G. Murray, of the Baltimore and Ohio Railroad, and George F. Ranolph, fist vice president of the Baltimore and Ohio. None of the previous witnesses who had been asked as to the personnel of the executive board was able to give the information.

Mr. McCrea testified that he owned some stock in the Westmoreland Coal Company, which he had inherited from his father. He also had a small interest in the Mill Ward Company acquired in the same manner.

"Mr. Cassatt was also interested in that company was he not?" queeried Mr. Glasgow.

"He had a small holding."

"Does he still hold the stock?"

"No, we all sold out last year."

The witness did not know how Mr. Cassatt acquired his stock.

"To whom did you sell?"

"To the people who owned the surrounding coal territory, among them Robert K. Cassatt, Colonel Huff and Mr. Eaxmann."

There were other interesting velopments during to-day's hearing which was protracted until 6 o'clock to-night.

The Senate yesterday passed a bill authorizing the Charleston Light and Water Company to construct a dam across Goose Creek, in Berkley county, S. C.

A telephone message to the Augusta Chronicle from Edgefield, S. C., shortly after last midnight repored the larger portion of the business section of the town in flames. Messages were sent to Augusta and Johnston for assistants.
